## **WARRANT FOR TOWN MEETING**

### **STATE OF NEW HAMPSHIRE**

---

To the Inhabitants of the Town of Rollinsford in the County of Strafford, in said State, qualified to vote in town affairs:

You are hereby notified to meet at Town Hall in said town the eleventh day of March, 1930, at ten (10) o'clock in the forenoon, to act upon the following subjects:

ARTICLE 1. To bring in your ballots for Town Clerk, Town Treasurer, one Selectman for a term of three years, one Road Agent and Chief of Fire Department.

ART. 2 To choose all other necessary town officers for ensuing year.

ART. 3. To raise such sums of money as may be necessary to defray town charges for ensuing year.

ART. 4. To see what percentage, if any, the town will vote to discount all taxes paid on or before the first of August next.

ART. 5. To see if the town will vote to establish a Public Library and accept the provisions of Chapter 8, Section 21-26 of the Public Statutes and appropriate a sum of money for the same.

ART. 6. To see if the town will vote to give a prescription permit to any druggist who is a registered pharmacist doing business in town to sell liquor for medicinal use, under Section 14, Chapter 147, of the Laws of the January session, 1917; approved April 17, 1917.

ART. 7. To see if the town will vote to restore the \$100.00 cut from the salaries of its firemen in 1927, making the appropriation for firemen's salaries \$400.00 as it was in 1926, instead of the \$300.00 as at present and raise and appropriate the extra \$100.00.

ART. 8. To see if the town will vote to assist in maintaining of a District Nurse and raise and appropriate money for the same.

ART. 9. To see if the town will vote to accept, keep and maintain in a state of good repair certain private ways formerly owned by the Salmon Falls Manufacturing Company, now owned by the New England Public Service Company, namely Front Street, approximately fifty-one (51) feet wide between South Street and Main Street, South Street approximately forty (40) feet between Third Street and the iron fence around the factory buildings, Second Street and Cross Street, and also .

See if the town will vote to accept, keep and maintain in good repair the sewer system formerly owned by the Salmon Falls Manufacturing Company, now owned by the New England Public Service Company, or any of the same, provided the New England Public Service Company conveys to the Town of Rollins-

ford by a good and sufficient deed, and without cost or expense, except expenses of preparing deeds of conveyance, said private ways and sewer system.

ART. 10. To see if the town will raise \$20,000.00 toward the construction of the Trunk Line Road and authorize the Selectmen to borrow from the State (agreeably to Chapter 50, Section 5, Session Laws of 1929) the balance necessary to complete this Trunk Line.

ART. 11. To transact any further business that may legally come before said meeting.

Given under our hands and seal this twenty-fifth day of February, 1930.

SAMUEL O. TITUS,  
EDWARD J. HUDON,  
JOSEPH C. ROBERTS,  
*Selectmen of Rollinsford.*

Appropriations will begin at 11 o'clock sharp.

*Chairman Cemetery Trustees.*

---

The undersigned, auditors of the Town accounts, have examined the books of the Selectmen, Town Treasurer and Town Clerk for the year ending January 31, 1930, and find all cash entries sustained by appropriate vouchers and castings correctly made, and footings agree.

C. A. JOHNSON,  
R. J. COLBATH,  
*Auditors.*

## CHIEF ENGINEER'S REPORT FOR 1929

---

Mr. Taxpayer:—

We solicit your cooperation for service. Our service to you is what you make it by preparedness. It's up to you.

Fire losses are, in effect, a tax on every man, woman and child. This is one case where the taxpayers, entirely by their own efforts, can produce the rate. It is an unescapable fact that if this town is to materially reduce its annual fire loss, it must impress upon its citizens the necessity for guarding against fire and of providing adequate means for combating it promptly—when it does appear—so as to reduce its damage to a minimum.

Selfishness is a deep rooted trait of human nature and we all have it to some extent. This is shown by the way crowds will gather to watch a burning building in the same spirit that they would watch a baseball or football game. They see in the fire not the loss of somebody's home, with all its prized possessions, but merely an exciting spectacle. How about the owners of these homes? They feel differently, for it is they who are directly affected—they are the ones whose cherished homes are reduced to ashes. This, then, is the problem—to bring home to every man, woman and child, the fact that fires which do not involve their property, are not just exciting spectacles to them but are real calamities which are a drain upon their pocket-

books. When this has been accomplished, fire losses are bound to drop, for if the people of this, or any other city or town, can be made to look at every fire as a waste of their personal earnings, they will no more countenance waste of their money by fire than they would any other flagrant waste of their monies. When this thought has been driven home to all the people a new era in fire prevention will be inaugurated and largely so by preparedness. If adequate fire protection is maintained the chances are that an incipient fire can be quickly extinguished to the benefit of every taxpayer. The individual should realize that no matter how careful they may be in their homes or in their industries, fire sooner or later is almost inevitable. Therefore realizing this fact, they will not be content with merely practicing fire prevention, but will demand fire protection—an even more important consideration. “Fire losses are a tax on every man, woman and child everywhere.”

Adequately equip, provide for and support your fire department to the end that they may protect your life and property with that ever ready response and assurance, which only your protection by preparedness can expect.

The past year has been a busy one for this department. Our larger and more destructive fires have taken quite a toll of valuable property as well as costing the lives of two small children. It is assumed that the fire which burned the building and took the lives of these two children was caused by their playing with matches in the hay barn where they met their death. “Let’s keep matches out of the reach of children, in a fire-proof container and, if necessary, under lock and

key." All of our destructive fires have been on the outer districts of the town and all have been pump jobs working in harmony with neighboring fire departments. Our truck pumper has surely proven its worth at these fires. Never has it failed to respond when called upon.

Our united thanks are due and are hereby extended to the Dover Fire Department, through its Chief, Carroll M. Nash, and the South Berwick, Maine, Fire Department, through its Chief, Fred F. Adams, for their valuable and timely assistance rendered at numerous times the past year. Their work of assistance to our department has been of the highest type and we acclaim their merits. We thank you Dover and South Berwick Fire Departments, and we assure you that we stand ready to retaliate, if the occasion ever demands our services.

Due to the standardizing of our 2½-inch fire hose couplings to National Standard Thread in 1928 we have experienced no trouble working in conjunction with the Dover and South Berwick departments.

We congratulate our School Committee for the fine fire escape placed on our Franklin School building, leading from the two second story class rooms to the ground. Work well done.

It is the desire of this department that the townspeople shall know of the patience and generosity extended the Rollinsford Fire Department by the newest of our industrial concerns, "The Tire Fabric Corporation" for the past year. About one half the Roster of your fire department are in the employ of the above corporation, and during the absence of these firemen, from their work at this company's plant, at all of our

fires, not one word of protest or criticism, has been uttered by the management of The Tire Fabric Corporation. Their's is a fine spirit.

At many of our hard fights the past year it was our pleasure to be served with hot coffee and other refreshments by the very thoughtful neighbors in the neighborhood of the fire, and we want these folks to realize how much we appreciate their trouble and hospitality.

In many instances in the past it has been somewhat bothersome to the driver of our fire truck due to the fact that many automobilists do not realize that at least half of the highway is due the truck while going to or at a fire. These offenders may get in wrong if this practice is continued.

The vote taken at last town meeting to have the grass along the roadsides burned in the spring of 1929 by the road agent, acting in conjunction with the chief engineer, was never executed, due to the lack of necessary funds for the same. The same conditions relative to fire hazards exist this year as last. The necessary appropriations should be voted and money raised before this work can be properly attended to.

Grass fires have been quite numerous during 1929 but have been extinguished with but very little loss to property owners. Everybody is urged to use extreme caution during the next year relative to kindling fires in the open without the necessary permit from the fire warden, as required by law. During 1929 New Hampshire had 525 forest fires, which burned about 2,200 acres of woodland, 900 acres of grass land and pasture, causing damage estimated at about \$15,000.00. Cost of fighting was rather more high than usual due to the

dry weather and totaled about \$8,000.00, one-half of which is paid by the state. Only six fires in 1929 burned more than 100 acres each and the largest of all is reported to have burned 200 acres. Once again, smokers are greatly in the van of those who start our many fires. The reports charge 210 fires and about one-half of the damage, more than one-half of the burned area and a large proportion of the fire fighting costs to this class of persons. Many fire permits have been issued, in this town, the past year, and in no case, where a permit has been issued, have we been called to help extinguish the fire. Keep within the law and obtain the required permit before starting a fire. Also let's not forget our chimneys. Clean them at least twice a year; it's our own protection as well as the other fellow's.

It has been suggested by many valuable property owners on Dover street and Highland avenue near the Dover line at Oak street, that this town ought to install a hydrant in the vicinity of the junction of Dover street and Highland avenue for the protection of the valuable property in that district and within the reach of any hydrant so installed in times of fire. Two of our worst fires for 1929 have occurred on Highland avenue, and had there been a hydrant at the foot of Highland avenue on Dover street, it might have lessened the loss to the property caused by the extra time it took to make the run into the city of Dover and make hydrant connections on Dover hydrants to supply water for these fires. I think the suggestion is worthy of consideration and should be properly investigated. It is said that the city of Dover will furnish water for any hydrant so installed free of charge.

The 450 feet of new double-jacket 2½-inch fire hose added to the fire department the past year has proven a very valuable asset in fighting fires since its acquisition. More new hose could be conveniently used by this department if the town could see its way clear to raise and appropriate money for the same. At this time I desire to especially recommend the installation of a hose dryer in our fire station. A hose dryer would more than prove its worth by preserving the 2500 feet of serviceable hose now owned by the town. After a fire all hose should be properly dried before being rolled and stored or replaced on truck. Water standing in rubber lined fire hose for any length of time will acidize and have a chance to ruin the lining as well as the jacket of such hose. A good serviceable hose dryer would not be very expensive so I recommend its installation. All properly equipped fire stations have some form of hose dryer, that surely helps preserve and lengthen the life of fire hose.

A first aid kit ought to be added to our fire truck equipment. In emergency they are very valuable for first aid to the injured and during the past year had we had one on the truck it would have in a few cases relieved pain caused by injuries to brother firemen while doing their duty.

A new 6-cell, 12-volt, Rubber Thread battery has been installed in the fire truck the past year at the wholesale price of \$60.50 and replaces the seven-year-old battery which came with the truck.

Worthy of consideration, in my opinion, is the matter of placing a siren fire alarm signal on our town hall building, thereby doing away with the steam whistle at the Somersworth Foundry Company, and

all the expense pertaining to its upkeep. It would cost in the neighborhood of \$500.00 to install an up-to-the-minute siren alarm signal, dependable 365 days a year, a saving of better than \$75.00 per year to the town would be the result. This amount at least now being paid to keep the steam whistle intact. Think it over Mr. Taxpayer.

I suggest and recommend the restoration of the \$100.00 stricken from the \$400.00 appropriation for firemen's salaries in 1927, making firemen's salaries for 1930 the same as it was in 1926, or \$400.00 for 1930 instead of \$300.00 as at present. Support article in town warrant to this effect.

Our fire truck is in good mechanical order outside of the pumper which needs repacking; its a minor, but very important job. The truck equipment and department supplies are all intact and in good serviceable condition.

The budget for your fire department of 1930 should be about the same as for the past year with the exception of firemen's salaries which should be raised \$100.00 making a total budget for 1930 of \$850.00 instead of \$750.00 as for 1929.

In conclusion, it is my desire, in behalf of the Rollinsford Fire Department, to thank our town officials, and the public in general for the hearty support received by us at their hands in the past, and we ask a continuance of that loyal support by every fellow citizen for this town's fire protection in the future.

Respectfully submitted in behalf of the Rollinsford Fire Department.

RAYMOND C. CHASE,

January 31st, 1930.

*Chief Engineer.*

## LOCATION OF ALARM BOXES

Chief engineer's residence, telephone, South Berwick, Maine, 84.

Fire station, Fourth street, under town hall.

Somersworth Foundry Co.'s office.

Front street, on pole opposite mill office.

After sounding an alarm, remain at box to direct firemen.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS, ROLLINSFORD, N. H.

---

To the School Board and Citizens of the School District  
of Rollinsford:

I have the honor to submit my second annual report as superintendent of schools.

On July 1, 1929, this supervisory union was reorganized and now consists of Somersworth, Durham, Rollinsford and Madbury, and is known as Supervisory Union, Number 56. In consequence of this revision, your superintendent is not able to visit the schools quite so often, but the union is still so small that very close supervision is given. There are in operation eight buildings with 37 regular teachers, two cadets from New Hampshire University, two special teachers and three nurses.

In your school district there has been but one change in teachers, Miss Elizabeth Hounsell, a graduate of Plymouth Normal School and with experience, replacing Miss Gormley in grades five and six of the Franklin school.

I think, and standardized tests which I have given support my view, that your schools are maintaining a satisfactory standard. This is due, in part, to the retention of good, experienced teachers. All the teachers are normal school graduates. The little schools in the Sullivan and Pearyard districts are enabled to do

excellent work because they are no longer handicapped by the presence of eighth grade pupils. This policy of sending the eighth grade pupils to the Franklin school or Dover should be maintained until Rollinsford is in a financial position to enable it to build a new consolidated school.

Miss Elsie Gerrish, a graduate of the New England Conservatory of Music, has been employed as a music supervisor and those who listened to the Christmas exercises can testify that she is getting results. Mr. Charles Lord generously let the Franklin school have the use of a piano. I wish that someone else might be public spirited and donate an instrument for the use of the Sullivan school. The old fashioned square piano has no trade value but very often it has great school value and we have sufficient room for an instrument of that type in the Sullivan school.

Miss Gerrish has started a toy orchestra in the primary grades of the Franklin school and harmonica clubs in the elementary grades here and at the Pear-yard school. The instruments were furnished at no expense to the district. An operetta will be given in the near future and if you will attend the performance you can see for yourself what is being done.

The enrollment has remained practically stationary and we were not obliged to open a room in the town hall. A very small increase, however, would necessitate such a plan. In table form you will find the enrollment and teachers. Schools were in session on the average of 171.5 days. The district is paying tuition for 21 pupils in Berwick Academy and 25 in Dover High school. Of the 24 pupils graduating last June, 15 are pursuing their education beyond the grammar

grades. Our graduates are "making good" in high school.

The attendance this year has been very good, partly due to excellent weather and little sickness. We regret to lose Miss Frances Varney as our school nurse. Her report accompanies mine.

A tag day, sponsored by the South Berwick Woman's Club, with the plans carried by Mrs. William Leonard and her helpers, netted a sum of money sufficient to supply milk to the undernourished during this winter. It is hoped that some one will do the same thing this year.

School	Grade	Teacher	Enrollment 1929-30
Franklin	8	Guy Croquette .....	13
Franklin	7	Guy Croquette .....	20
Franklin	6	Elizabeth Hounsell .....	16
Franklin	5	Elizabeth Hounsell .....	15
Franklin	4	Bernice Doherty .....	18
Franklin	3	Bernice Doherty .....	10
Franklin	2	Annie Brown .....	12
Franklin	1	Annie Brown .....	10
Sullivan	1-4	Catherine R. Redden .....	13
Pearyard	1-7	Madeleine Gouin .....	17

Other statistics for year ending June, 1929:

Per cent. of attendance .....	95.6
Cases of Tardiness .....	159
School visits made by board members .....	29
School visits made by superintendent .....	315
School visits made by citizens .....	249

The median per pupil cost of Public Elementary Schools for 1928-29, in New Hampshire, as published

by the State Board of Education was \$83.35. For Rollinsford the cost of the same items was \$69.30. Schools may be costing a lot of money but the cost in Rollinsford is low. Of the 244 districts in the state 188 pay more than Rollinsford. I wish that we might add Manual Training and Cooking and Sewing to our program of studies.

The town hall would provide ample room and after the first cost for equipment the upkeep would be very little. The new seats and desks in the grammar grade room at the Franklin school have made the pupils much more comfortable and teaching easier. New seats and desks should be purchased this year for the primary room, grades one and two, and each year the purchase of a few more made until the building is properly equipped throughout. The floors in this building are bad and considerable money could be expended in renovating the interior, but in my opinion the seating is most urgently needed.

The Sullivan school received some repairs last summer and these should be completed. Our side lighting should be provided before the building is painted.

Your superintendent feels that he has had the support of a loyal school board and interested citizens for which he is grateful.

Respectfully submitted,

HOWARD L. WINSLOW.

## SCHOOL NURSE REPORT

---

To Superintendent Howard Winslow:

Following is a narrative report of my work in the public schools of Rollinsford:

Milk is such a necessary food for growing children as most parents know, yet there are many homes where it requires almost constant urging to get the boys and girls to drink milk. In other homes it is difficult to procure milk enough for all. For these reasons we are serving pasteurized milk in the school.

In most cases, it is being paid for by the parent—the free milk is supported by our Tag Day in March.

Glasses have been obtained for three pupils with the financial aid of the Red Cross, the oculist giving his services free of charge.

The school nurse is a link between the teacher and the home. With the splendid co-operation of the teachers, I have been able to investigate nearly all cases of children out of school for sickness.

The nurse does not take the place of a doctor and diagnose, but she is on the lookout for symptoms which may indicate the common cold or a suspicious communicable disease; if the former is found, general teaching of proper care is sufficient—if the latter is suspected, the parents are urged to call their family doctor. The case is reported to our health officer who does send a physician when other means fail.

Respectfully submitted,

FRANCES J. VARNEY, R. N.,  
*School Nurse.*

The following is the result of the annual inspection of pupils:

	No. Inspected	No. Absent	Underweight	Vision	Throat	Teeth	Unvaccinated	Corrections Secured
Franklin School:								
Grades I-II . . . . .	21	1	4		4	6	4	0
Grades III-IV . . .	24	1	6	4	9	15	0	1
Grades V-VI . . . .	27		16	1	3	5	0	2
Grades VII-VIII .	34			2	0	6	0	3
Sullivan School . .	13		7	2	1	4	3	4
Pearyard School .	15	3	3	1	2	3	0	6

Yours very truly,

FRANCES VARNEY.

## CONCERNING THE SCHOOL PIANO

---

For the benefit of those who are not informed, I wish to state that the piano in the town hall, is owned by the Franklin school.

This was made possible through the efforts of the school board and the teachers.

It was agreed, to rent it to outsiders, for three dollars, each time it was used, except to the local churches, and to them, for one dollar and fifty cents each time.

With money received for use of the piano, it has been possible to hire music for graduation, buy baseball letters for the grammar school boys, and musical instruments for a toy orchestra, for the first and second grade schools.

There is a balance on hand of \$16.25, February 17, 1930.

MRS. GEORGE W. NUTTER,

*Member of School Board.*

# ROLLINSFORD SCHOOL DISTRICT

## REPORT OF TREASURER

For Year Ending June 30, 1929
